## PROFESSIONAL EXPERIENCE

---

### Fullstack developer - Team lead

*Clar technologies pvt ltd*

2021 – present  
Coimbatore, India

- **Leading a cross-functional team of 15+ software engineers**, providing guidance, mentorship, and technical leadership to drive successful project execution and achieve project milestones within strict timelines.
- Designing and Developing **Multitenant based SASS platform**
- Working on a **Deep Tier financing platform for supply chain industries using Cosmos SDK, Cosmwasm, and IBC**
- Designed and developed **private blockchain consortium and chain code for supply chain platform** using hyper ledger fabric
- Developed **stateful and stateless smart contracts for primary/secondary sale, Royalty, and Auction** functionalities of the NFT marketplace using the Algorand blockchain
- Designed and implemented **upgradable smart contracts** for Tokenization, crowd sale, and Airdrop using BSC
- Utilized **TypeScript, Go, Rust, Python, React.js, and Node.js** to develop full-stack web applications, ensuring high-quality code and seamless user experiences.
- Utilized **Docker and Kubernetes** to deploy and manage applications, ensuring efficient and scalable deployment processes.
- Automated **deployment and configuration tasks using Ansible**, ensuring consistency and reliability in deployment processes.
- Worked with **AWS and Azure cloud platforms to design and implement scalable solutions**, contributing to the development of highly available and fault-tolerant systems.
- **Contributed to code reviews** and provided constructive feedback to other developers.
- **Collaborated with HR for recruitment and hiring processes**, including conducting interviews and evaluating candidates.

### Junior fullstack developer

*Binary numbers.io*

09/2020 – 11/2021  
Mumbai, India

- Developed and maintained **full-stack web applications using Vue.js, React.js, and Node.js**, ensuring high-quality code and seamless user experiences.

- Utilized **Firebase, MySQL, and MongoDB** to store and retrieve data, ensuring efficient and secure data management.
- Worked with Ethereum blockchain technology to develop decentralized applications, contributing to a more secure and transparent platform.
- Collaborated with cross-functional teams, including designers and product managers, to deliver high-quality products on time
- Documenting application design, features, and functionality

### Software developer trainee

01/2020 – 08/2020

*Launtrax pvt ltd*

Virudhunagar, India

- Developed a **Microservices based system that processed millions of aviation information data each and every day** using Spring boot and Apache camel
- Implemented **GraphQL to optimize data queries** and reduce response times by 30%, resulting in a more efficient and flexible application.

## EDUCATION

---

### MBA - Project Management

2021 – 2023

*Alagappa university*

### B.E - Computer science and Engineering

2016 – 2020

*Kamaraj college of engineering and technology*

## SKILLS

---

React js • Node js • Typescript • Golang • Rust • Python • Ethereum • Algorand  
 Cosmos • solidity • MySQL • Redis • MongoDB • Postgresql • GraphQL • Kafka  
 ELK • Docker • kubernetes • Ansible • AWS • Azure • Terraform  
 Hyperledger Fabric

## CONTRIBUTIONS

---

### Cloudnloud Community lead

2022 – present

- Participating as Speaker in tech conferences, Organising and Hosting events
- Actively writing tech blogs about Fullstack, Blockchain and Cloud & Devops
